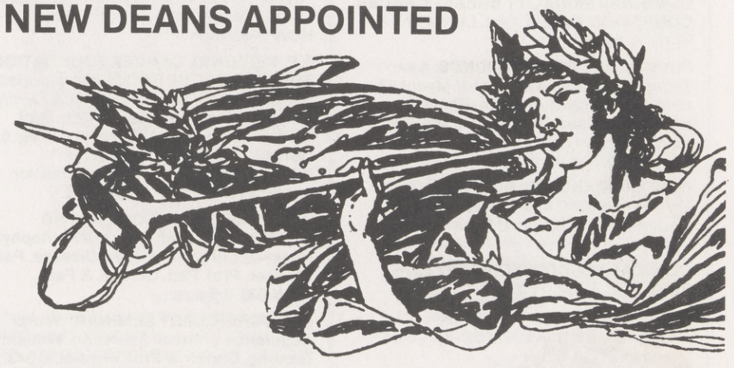
TODAY & TOMORROW

TWO NEW DEANS APPOINTED



John C. Greene, DMD, MPH, will begin his duties as the new dean of the School of Dentistry on February 1. Former deputy surgeon general, and chief dental officer of the U.S. Public Health Service since 1978, Greene was selected in a nationwide search following the retirement of Ben W. Pavone in July. Thomas M. Christie, associate professor of Oral Medicine and Hospital Dentistry, has been serving as acting dean.

A native of Ashland, Kentucky, Greene served as an electronics technician with the U.S. Navy during World War II. He has held teaching appointments in dental schools at UCSF, the University of Pennsylvania and the University of Michigan School of Public Health. He received his DMD from the University of Louisville in 1952 and his MPH from UC-Berkeley School of Public Health in 1961.

A prolific researcher in the fields of oral epidemiology, oral hygiene and periodontal disease, Greene has received a number of honors and awards, including honorary doctor of science degrees from the University of Kentucky (1972) and Boston University (1975), the Distinguished Service Medal from the Department of HEW (1975) and the Citation of Exceptional Service from the University of Pacific (1977).

Lloyd N. Kozloff, PhD has been appointed dean of the Graduate Division. Kozloff, who is replacing retiring dean Harold A. Harper, comes from the University of Colorado Medical School in Denver, where most recently he was professor of Microbiology and Immunology. A member of that university since 1964, he is former chairman of the Department of Microbiology and former associate dean for Faculty Affairs.

Kozloff was elected a fellow of the American Association for the Advancement of Sciences (AAAS) in 1975, and received his BS in 1943 and his PhD in 1948 in Biochemistry from the University of Chicago. He began at UCSF January 1.

NEWS BRIEFS

On Monday, January 19, all UC employees on the payroll as of May 31, 1979 should receive a lump sum payment equal to 7% of their gross earnings for the period between October 1, 1978 through June 30, 1979. An eligibility criteria sheet will accompany each bonus check so employees can verify the correct amount. This is a result of the decision reached in December by the State Supreme Court, that SB 91, the 1979 lump sum salary inflation bill, was constitutional.

The bonus will be calculated based on gross earnings, including regular time, overtime, and premium overtime, as well as terminated vacations and on-call pay. Employees working under special pay agreements who do not receive range adjustments will not receive a bonus. Taxes, retirement and social security will be deducted. Academic faculty in the compensation plans will have all payments to retirement codes N or C excluded and the 7% will be applied only to their base pay. Checks for terminated employees will be mailed to the "check disposition" address used while still employed.

Updates on the bonus payment can be heard on the Personnel INFO line, x4636.

Nominations are now being accepted for the Charlotte Baer Memorial Clinical Faculty Award. The award honors the late Dr. Baer, a 1941 UCSF School of Medicine graduate and an associate clinical professor of Medicine, who died in 1973. It is given to a member of the clinical faculty for outstanding service to the School. Baer was the first woman president of the California Society of Internal Medicine in 1971 and vice president and director of the S.F. Medical Society.

Nominations are due in the Office of the Chancellor, Room S 126, by Monday, February 2 and should be accompanied by a curriculum vitae and a short statement describing reasons for the nomination. The award will be presented at the Alumni Homecoming Banquet on May 23.

A symposium on "Emergency Medical Management of Toxic Exposures and Other Injuries to Firefighters and Fire Victims" will be held on Thursday, January 22 from 9 a.m. to 5 p.m. at the Letterman Army Institute of Research Auditorium in the Presidio.

The symposium will be of interest to physicians, nurses, emergency medical technicians and occupational health specialists. Co-sponsors are the S.F. Fire Department, Firefighters Local 709, UCSF's Bay Area Regional Poison Control Center and Northern California Occupational Health Center, the S.F. Department of Public Health, the Employees Health Center at SFGH, the National Institute for Occupational Safety and Health (NIOSH), CAL-OSHA, and the Presidio of S.F. Fire Department. For registration information call 821-8324.

The second annual UC-San Francisco Job Fair will be held on Friday, January 23 from 10 a.m. to 4 p.m. at Queen Adah Hall, 1390 Turk Street, between Fillmore and Webster Streets. Supervisors from various departments will interview candidates for several positions available at UCSF. Job applications will be accepted and career counseling will be available.

The fair, sponsored by UCSF's Personnel Department, the Western Addition Project Area Committee, the Bay Area Urban League, and the Committee Advisory Board of the West Side Community Mental Health Center, is part of UCSF's Affirmative Action Outreach project.

A female employee recently was assaulted while working over the weekend in an isolated area on campus. UC-San Francisco has had very few reported incidents of personal assaults, however everyone should maintain an awareness regarding the possibility. The Rape Prevention Education Program continues to offer the following:

Self-Defense Workshop: Saturday, Feb. 21, 9 a.m.-5 p.m. Free to the campus community; $20 general.

Women's 30-hour Self-Defense Class: Wed. Evenings, Jan. 7-Mar. 11, 7-10 p.m. $10 for the campus community; $30 general. Late registration is available.

Women's Review Class: A review of fighting techniques in practical situations for those who have completed the 30-hour class. Sats., Jan. 10, 17 & 24, 10 a.m.-1 p.m. $18 for everyone.

Tear Gas Class: Mon., Jan. 12, noon-2 p.m. Free to the campus community. Canister of tear gas costs $14.

Preregistration is required for all classes. For further information call x5683.

A Depression Prevention Research Project has just begun at SFGH and is offering a series of classes in both English and Spanish for S.F. residents 18 years of age or over. The classes, scheduled for the weeks of January 23 and February 23 are conducted by the UCSF Department of Psychiatry at SFGH and are open to individuals who do not feel depressed enough to seek therapy, but who would like to take part in an educational experience where they can learn specific strategies for controlling their moods. Classes will consist of 12 one-and-one-half-hour sessions, twice a week for six weeks at SFGH.

The Depression Prevention Research Project is headed by Ricardo F. Muñoz, UCSF assistant professor of Psychology. For further information call 821-5075.

A limited number of brochures describing UC's 26 natural land and water reserves are available from the Systemwide Natural Land and Water Reserves System Committee. The Reserves System was set up to preserve and manage a cross section of the state's natural reserves to help meet UC's teaching and research needs in the disciplines that require field work.

The Reserves System is extremely diversified and allows a wide variety of animals to be studied, for example, marine mammals at the Año Nuevo Island Reserve and desert rodents at the Philip L. Boyd Deep Canyon Desert Research Center.

Faculty members who are interested in studying animals in their natural habitat and would like a brochure, should contact Amanda Berks, x1571, in the office of Joseph S. Spinelli, director, Animal Care Facility and campus representative, Systemwide Natural Land and Water Reserves System Committee.

The card catalog in the UCSF Library will have some major changes starting in January. A new international code is being implemented which will mean users may have to change some of their look-up habits.

The new code, which is being used by all UC libraries and by most libraries in the English-speaking world, tries to make the entries for the catalog cards closer to normal use. For example, instead of the entry for UCSF being: California. University, San Francisco, it will be University of California, San Francisco. Users who run into trouble should ask a reference librarian for help.

Accidental Death and Dismemberment Insurance (AD&D) now offers a Modified Rate Family Plan. The new plan serves UC employees who are single parents and want to cover dependent children. It can also provide more flexible coverage when both husband and wife are employed by UC than is available through the older Family Plan.

Staff and faculty may enroll or make changes in the AD&D insurance at any time of the year. Forms may be completed in each department. For further information call x1400.
